

DESPERATE HOUSECAT ABBY A731089

Princess **ABBY** likes to have her way! She was brought to AAC as a stray, and because she was a bit overwhelmed in the shelter, we moved her into a foster home. Initially she can be shy, but once **ABBY** knows you, she's very talkative (she'll carry on a conversation with you). She prefers to be in the same room with you, and will sleep on the bed with you every night (in her favorite spot). **ABBY** enjoys being gently petted and scratched. She's very playful and likes paper bags, catnip toys, and ribbons. She's tolerant of other cats after slow introductions, but would be happiest as the only cat.

- ◆ 6 years old, orange and white tabby, spayed
- ◆ INTAKE: 7/15/16
- ◆ Shy in new environments; warms quickly
- ◆ Playful; Talkative
- ◆ Loud Purr
- ◆ Tolerant of other cats; may be fine with cat-friendly dogs; Good with older children
