

# DESPERATE HOUSECAT AMARYLLIS A892188

**AMARYLLIS** and her large group of friends lost their home and were brought to AAC. In the shelter environment, she is scared and nervous, which qualifies her as a **CACTUS CAT** - <http://austintexas.gov/page/cactus-cats>. **AMARYLLIS** can be petted, and she usually shows no aggression. You can use a scratcher or even your hand, and move slowly. We would love to see **AMARYLLIS** adopted into a quiet home where she can relax and let her guard down. We believe that once she is more at ease, **AMARYLLIS** is going to be a wonderful companion. She is often seen snuggling with one of her roommates, and we believe she will be happiest in a home with at least one cat buddy.
