

DESPERATE HOUSECAT ANNIE A876549

ANNIE has been a momma cat numerous times, and now she's retired from motherhood and is ready to have a home all to herself! She needs time to adjust to new people, which qualifies her as a **CACTUS CAT** (<http://austintexas.gov/page/cactus-cats>). **ANNIE** is going through clicker training and has already mastered the 'nose boop'. With her trainer and other humans that she knows well, **ANNIE** seeks affection, often rubbing her head in their hands. She can get overstimulated, so it's best for her to go home with an experienced and patient adopter. **ANNIE** doesn't seem to care for other cats, which makes living in a kennel surrounded by felines a bit stressful. We believe that once **ANNIE** is in the right environment for her, she will relax and, given time, be a loving companion.
