

DESPERATE HOUSECAT BAGHI A758630

BAGHI is incredibly sweet and gentle! He's also a bit shy. He was brought to AAC by his only owner due to allergies in the family. **BAGHI** was terrified in the shelter environment (he stopped eating) so we moved him into a foster home. It didn't take long for him to relax and start eating again. He tends to overgroom when he is stressed, causing hair loss, but since **BAGHI** has been living in his foster home, his hair has been growing back. He enjoys being picked up and held, and is a lap cat. **BAGHI** is very affectionate, and will give you head butts. **ADORABLE BEHAVIOR:** He will steal the straw from your glass. 😊
