

# DESPERATE HOUSECAT BEAR A757998

Without a doubt, **BEAR** is absolutely one of the most affectionate, adorable DHCs you will EVER meet! She arrived at AAC as a stray, and spent several weeks sitting terrified in a kennel (she's afraid of other cats). Staff and volunteers could pet her, but she never relaxed. Once we moved **BEAR** into a foster home with no other pets, she became a different feline! She sleeps with her foster mom at night, and seeks (and gives) affection (including kisses). **BEAR** wants to be near her human, and will lay her head on your shoulder or chest. She is a lap cat and is very playful. She's still shy, but warms up very quickly. **BEAR** will greet you when you come home. She would prefer to be the only pet in a quiet home, but she may do fine with one other 'very cat friendly' cat.
