

# DESPERATE HOUSECAT BUTTONS A743490

**BUTTONS** is VERY affectionate and playful! She was brought to AAC after spending most of her life with one owner (they lost their home). She is a bit shy, and she's stressed in the shelter environment. She doesn't like being around so many cats, but in her former home, she was respectful of them (and she should be again away from the shelter). **BUTTONS** loves to be petted, and may be a lap cat. She wants to be near her human, and is talkative at times. **BUTTONS** is also known to be fine with dogs and children.
