

DESPERATE HOUSECAT CHERRY PIE 13456

CHERRY PIE and her friends were brought to AAS after being abandoned, so understandably she doesn't trust humans. She is super shy, and is now a member of our **CACTUS CATS** - <http://austintexas.gov/page/cactus-cats>. Currently she doesn't like to be touched, but she can be approached (go slow). **CHERRY PIE** can be petted with a scratcher for a short time, and once she sniffs your hand, she will eat treats from it. She loves other cats, and finds comfort from being around them, so she is going to be happiest with a cat friend. **CHERRY PIE** was adopted for about six months, but she hid the entire time. Her owner was not able to work with her, and there were large dogs in the home that might have scared her. **CHERRY PIE**'s new home must include an adopter who is very experienced and patient, and who will continue the socialization process at home.

- ◆ 1 year old, black, spayed
- ◆ INTAKE: 5/21/2026 (previously 8/7/2025)
- ◆ Needs a cat buddy in her new home
- ◆ Very shy; Can be petted briefly with a scratcher
- ◆ Adopter must be experienced and continue to work with her
- ◆ Great with other cats; May be afraid of dogs; Not recommended for children

The adoption fee is **WAIVED** for **CHERRY PIE** and **ALL Desperate Housecats!**
