

DESPERATE HOUSECAT CHILI A508767

Sure, **CHILI** is 16, but he doesn't look it or act it! He was brought to AAC because his owner could no longer take care of him. Not fond of the shelter environment, he wouldn't eat, so we moved him into a foster home. We discovered that **CHILI** needed some dental work, which a local veterinary clinic performed. He received a thorough dental cleaning, and got 'high marks' for having great teeth! 😊 **CHILI** has completely recovered, and is happy and healthy. He loves laps, and being picked up and held. **CHILI** is tolerant of other cats but wouldn't mind being the only cat in the household. We don't know how he is with dogs, but he is probably great with children.
