

DESPERATE HOUSECAT CORA A753190

CORA is used to an indoor/outdoor life, so being in a shelter has been tough on her. She was brought to AAC after living with the same owner since she was a kitten. **CORA** spent some time in a group room, but got herself into a little trouble and is now living in a single kennel. We suspect that the stress of shelter life, and perhaps being surrounded by so many cats, contributed to her biting someone. **CORA** can also get overstimulated when being petted. She needs a very experienced and patient adopter who can provide her with an indoor/outdoor environment. When she's not feeling anxious, **CORA** is a lap cat and enjoys being petted all over. She is chatty and very affectionate. **CORA** is going to be happiest in a household where she is the only pet.
