

DESPERATE HOUSECAT CROW A673272

CROW is also fondly known as Piglet and Pigbug (she runs with her head down 😊), and is cute as a button! She was brought to AAC when her owners moved out of state and was very shy in the shelter, so we moved her into a foster home. She's still a little timid, but is coming out of her shell quickly. **CROW** is tubby and has a funny walking gait (her legs on the same side move forward together, instead of alternating sides) which gives her a waddle. She has an adorably high-pitched meow and will sometimes have a conversation with you. **CROW** is as sweet as can be and is learning that it's ok to snuggle with humans. She even curls up on your chest and will let you rub her belly. **CROW** is fabulous around other cats, and will likely be fine with dogs and children.
