

DESPERATE HOUSECAT DEWDROP A918749

DEWDROP was brought to AAC as a stray, and he has been a bit shy and nervous. The shelter environment makes him uncomfortable, so we would love to see him in a real home (either through adoption or through foster). When staff and volunteers have spent time with **DEWDROP**, he relaxes, starts kneading, and can be petted (go slowly). Soon he'll be leaning into the petting. Sometimes he gets overstimulated, but give him a break and it won't be long before he's ready to be petted again.

DEWDROP likes shoulder scratches, and has been known to snuggle.
