

# DESPERATE HOUSECAT EMMITT A856673

**EMMITT** is super affectionate! **EMMITT** enjoys playing with wand toys! **EMMITT** LOVES belly rubs! He was brought to AAC because he had a urinary blockage. It was successfully removed, and now he simply needs to eat a prescription urinary diet to prevent future issues. Now in a foster home, **EMMITT** likes watching birds out the window, and basically LOVES to be the center of attention. He's an explorer and is very energetic (he likes jumping on counters), so providing him with a tall cat tree is ideal. **EMMITT** is learning not to scratch on furniture (have lots of scratching posts/boards handy). He's not used to being picked up, but in time that may change. He's becoming a lap cat when he didn't used to be. **EMMITT** is incredibly patient so he will likely be good around children.
