

DESPERATE HOUSECAT FALCOR 13155

FALCOR is a big, gorgeous boy who is very friendly and gentle - no stranger danger! He was surrendered to AAC with a urethral obstruction, and made a full recovery from surgery that removed the narrowest part of his urethra. He has easily transitioned to an anti-inflammatory diet to reduce and help prevent bladder inflammation going forward. **FALCOR** is agile and playful, and will fetch toy mice. His meows are tiny, and he will gently raise his front paws onto your legs when he wants attention. **FALCOR** will do best in a household as an only pet or where his access to food is separate from other pets. He would be a GREAT family pet, but beware, you are bound to get lost in his crystal blue eyes!
