

DESPERATE HOUSECAT GEORGE A622498

GEORGE (GEORGIE) is super chill, super handsome, and is super friendly with humans of all ages! He was brought to AAC after his owner passed away (he was adopted from AAC when he was just a couple of years old). **GEORGE** loves sitting on his foster dad's lap and sleeping on/beside his foster mom. He purrs like a broken motor when he's petted, and is a total cuddle monster. **GEORGE** may get along with other laid back cats, but he likely will be happiest as an only (he was originally fostered with a cat who came with him to the shelter, but he hid because she bullied him). **GEORGE** is timid around new people, but blossoms into a loving, friendly cat within a couple of days. He has been known to quickly bond with children (sleep with them, lick their faces and attend Zoom classes with them). 😊 **GEORGE** can be talkative when he wants, particularly when checking out birds and squirrels through the windows. He is a strictly indoor cat, but seems curious about the outdoors (he would probably enjoy a catio).
