

DESPERATE HOUSECAT GINGER A736702

Looking at these photos, it's hard to believe that **GINGER** is the same DHC who was swatting and trying to bite in the shelter environment! When her only owner lost their home, she was brought to AAC, where stress also caused her to overgroom, leading to hairloss. After moving into a foster home, **GINGER** soon relaxed and became her true self: sweet, cuddly, playful and friendly. She has stopped overgrooming, and her hair is growing back. **GINGER** will need time to adjust to a new home and new humans, but once she does, she will sleep with you, sit in your lap, and follow you around. **GINGER** is great with other cats and is known to be good with older children.
