

DESPERATE HOUSECAT GINGER A745011

GINGER is very exotic! She was born in South Korea and looks like a bobtail tortoiseshell. She was brought to AAC because her owner could no longer take care of her. Uncomfortable at the shelter (she was overwhelmed by so many cats), **GINGER** got a much needed break in a foster home. As the only pet, she relaxed and was very affectionate with her foster mom. **GINGER** is a lap cat, and enjoys being petted. She may be fine with one other feline in the home (with proper introductions), but she prefers to be an 'only'.
