

DESPERATE HOUSECAT

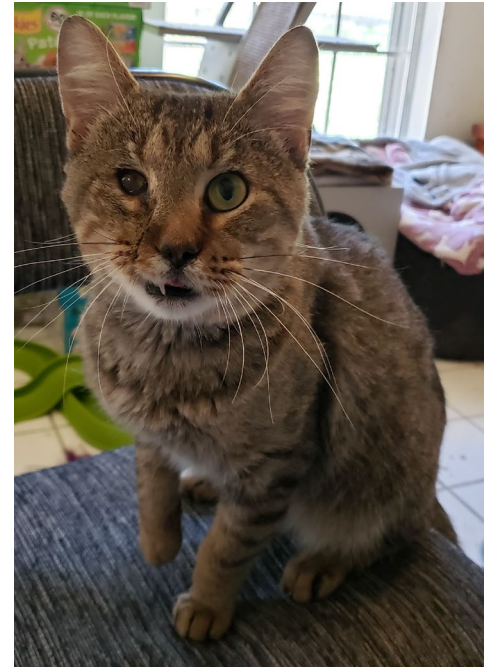

GREYJOY A865528

YEP, GREYJOY is a bit 'rough' looking, but he's the sweetest, gentlest cat you'll ever meet! GREYJOY was brought to AAC as a stray with severe facial trauma and injuries. His right eye probably has no vision, but it is comfortable and doesn't require any treatment. His jaw is shifted, but there is no inflammation and it is not causing him any pain, or keeping him from eating. In fact, GREYJOY's appetite is very healthy! He's a lap cat and LOVES to be petted (he doesn't want you to stop 😊). He'll follow you around and wants to be near you.

GREYJOY is FIV+, which means he needs to be an indoor only cat. He is great with other cats (he's often seen snuggling with one of his foster siblings), and would probably do well with dogs and children.
