Need a mouser? The cats in this room are not well socialized. **This group came from a very large and sad hoarding situation in August** which left them extremely scared and it is taking them a long time to adjust in the shelter.

We think they would be best suited for an experienced and patient cat owner, or for someone looking for a barn cat.

They previously lived as indoor strays, and like any barn cat, will need food, water, shelter and vet care in exchange for their hunting skills. **Ask a Staff member or Volunteer for more details.**
