

DESPERATE HOUSECAT HAZEL A841943

HAZEL has already been through a lot in her young life, and she's ready for the rest of it to be filled with tons of fun and love! When she arrived at AAC as a stray, the left side of her face was swollen and paralyzed (probably from blunt head trauma). She received treatment and TLC, and **HAZEL** made a complete recovery. Now living in a foster home, she is great with other cats, especially kittens/young cats. **HAZEL** is a bit shy, and often hides when her foster mom enters the room. Once you start talking to her, she comes out and meows to be petted. Sometimes **HAZEL** swats when you are petting her, but it's always gentle and is easily redirected. She is very playful and loves to sit in a lap. We recommend a quiet home for **HAZEL** to feel her most comfortable.
