

DESPERATE HOUSECAT JOSEPHINE A887224

JOSEPHINE was brought to AAC as a stray, and her favorite thing to do is to hide. This qualifies her as a CACTUS CAT (<http://austintexas.gov/page/cactus-cats>). Staff and volunteers have been working with **JOSEPHINE**, and through clicker training, she is becoming more confident. Once she knows you (go slow), she enjoys chin scratches, and being petted down her back, tail, and even her paws. In time she will even show you her belly. **JOSEPHINE** should warm up quickly once she is adopted, but her new family will need to be patient and give her whatever time she needs to adjust.
