

DESPERATE HOUSECAT KAT A745908

KAT is regal, but he also has a playful side. He was brought to AAC by the only owner he ever knew because they were unable to afford medical care. He had developed a urinary blockage which has been successfully treated. All he needs now is a prescription food to prevent further blockages from forming. **KAT** likes to chase bugs, and is confident and sweet. He wants to be where his human is, often sleeping by their feet. **KAT** gets along well with other cats and with dogs (he lived with a puppy that he played with). He is also very tolerant of children.

- ◆ 2 years old, black, medium hair, neutered
- ◆ INTAKE: 3/24/2017
- ◆ Playful; Likes to be picked up and held
- ◆ Enjoys being brushed; allows a nail trim
- ◆ Confident and chill
- ◆ Good with other cats, dogs and children
