

DESPERATE HOUSECAT KATZA A747871

KATZA is a very appreciative and affectionate lap cat. **KATZA** is easy to handle, loves attention and returns it with lots purring and love. Even at 11, **KATZA** is still talkative and playful.

This pretty girl is fearful of children, good with other cats, and unknown around dogs, but might be fine with a proper introduction. We think **KATZA** would do best with a cat-savvy adopter.
