

DESPERATE HOUSECAT KIKI A736567

KIKI is the quintessential family cat: she's calm, gentle and sweet! She lived with one owner most of her life, but she was brought to AAC for being aggressive towards their dog. After a couple of months at the shelter, she got a well-deserved break in a foster home. **KIKI** LOVES nothing more than to bask in a sunny window, greet you when you come home, and sit next to you to get scratched and brushed. **FAVE activity: being scratched on top of her head.** **KIKI** is a bit shy at first, but once she knows you, she's an expert at giving headbutts and snuggling (she's often found sleeping under her foster parents' arms). She is great with other cats after slow introductions, and with gentle children. Her foster parents have tested her with cat-friendly dogs, and she's fine with them as well.
