

DESPERATE HOUSECAT KIMCHI A832574

KIMCHI is adorable, and has a lot of personality! She arrived at AAC as a stray, and to say she hated the shelter environment is an understatement. We moved her into a foster home, and because she is very shy and cautious with new people, it took a couple of weeks before her foster mom could pet her. Now, **KIMCHI** comes up to her foster mom for affection, although sometimes she is still a bit wary and may swat or hiss. **KIMCHI** is very playful (especially with catnip mice), and loves a good scratching post. She'll need time to adjust to a new environment and to new people, but once she does, she is very sweet and will follow you around (especially if you have treats). She's not quite a lap cat, but she's working on it.
