

DESPERATE HOUSECAT KIT KAT A710738

KIT KAT is no stranger to the shelter, and she **REALLY** wants this time to be her last! She was adopted as a kitten, brought back after six years, adopted again, and brought back a month later. **KIT KAT** doesn't like living in a kennel surrounded by other cats (we suspect she prefers to be the only pet), and can be hissy and swatty. During her photo shoot, **KIT KAT** was a lap cat, and was very sweet. She enjoys being petted and brushed, and doesn't mind being picked up and held. She likes to be near her humans, and can be extremely loving. **KIT KAT** needs a quiet home with lots of room to run around, and safe places to hide when she gets upset (when something startles her).
