

DESPERATE HOUSECAT LAVA CAKE A873218

LAVA CAKE was brought to AAC with the other cats in his group room, and wouldn't mind being adopted with at least one of them (not required). In his previous home he didn't have much interaction with humans, but **LAVA CAKE** has quickly learned that people are ok (especially if they have Churu). If you move slowly and at his level, he can easily be petted. He won't hiss or swat, and **LAVA CAKE** instantly relaxes when you scratch his head and cheeks. He'll even show his tummy and make air biscuits while you love on him. **LAVA CAKE** needs a quiet home and time to acclimate to a new environment and to new people, and will be happiest with a cat buddy.
