

# DESPERATE HOUSECAT LEVON A850690

**LEVON** was living with a colony of cats, but when it became unsafe for him to continue to live with them, he was brought to AAC. He is shy and nervous, and qualifies as a **CACTUS CAT** (<http://austintexas.gov/page/cactus-cats>). Staff and volunteers are working with **LEVON** to help him regain his confidence, and to get used to humans. He has made **incredible progress** since he first arrived at the shelter. When you approach him, he may look terrified, but he **doesn't hiss or act aggressively**. **LEVON** LOVES treats, especially Temptations. A patient adopter who will give him time to adjust will find themselves being rewarded with a companion who will purr and make biscuits. **LEVON** is often seen snuggled with one of his group roommates. He would do well in a home with a cat buddy to hang out with.
