

DESPERATE HOUSECAT LILLY A759481

LILLY doesn't seem to like other cats, so living in a shelter surrounded by them is stressful. She had lived her entire life with just one owner, but they brought her to AAC because a family member developed allergies. **LILLY** is shy, but warms up quickly. She is very gentle, and is a lap cat. She's also extremely easy to handle. **LILLY** is going to be happiest in a quiet household where she is the only pet.
