

DESPERATE HOUSECAT LUNA A844935

To say that **LUNA** doesn't like other cats is a **REAL** understatement! She lived with her owner for six years, but then they moved to a location where she sees a stray cat occasionally and gets very upset, so they brought her to AAC. We can only imagine how stressed and confused she is surrounded by cats in the shelter. Away from other felines, **LUNA** is friendly, quiet, independent and low energy. She has a playful side, and will lazily swat at wand toys. Because she is obese, she wants a home with someone who will help her shed those extra pounds. **LUNA** is fine being held, and is very sweet and intuitive. She solicits affection, and loves lounging in a sunny window to watch birds and other outdoor creatures (just not cats!).
