

MAESTRO

MELODY

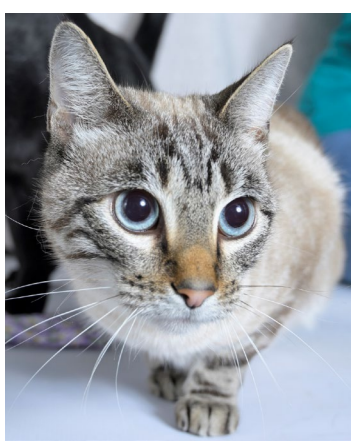

DESPERATE HOUSECATS

MAESTRO A809001 & MELODY A839910

~~~MUST BE ADOPTED TOGETHER~~~

MAESTRO and **MELODY** are such a wonderful bonded pair! **MAESTRO** was born with CH (Cerebellar Hypoplasia), but this doesn't keep him from playing and having lots of energy. He is easily handled and loves attention. He can feel a little anxious in new situations, but having **MELODY** by his side helps him stay calm. His previous owner also gave him gabapentin on occasion to lessen his anxiety. **MELODY** is a little shy when you first meet her, but once she knows you, she is very affectionate and loving. She will follow you around and loves to be petted. She is also energetic and playful. **MAESTRO** and **MELODY** are comfortable with other cats, and may be fine with laid-back cat friendly dogs and older children.

- ◆ **MAESTRO:** 2 years old, black, neutered, has Cerebellar Hypoplasia
- ◆ **MELODY:** 2 years old, lynx point, Siamese, spayed
- ◆ **INTAKE:** 10/28/2021
- ◆ Playful and Affectionate
- ◆ Good with other cats; May be fine with cat friendly dogs and older children
- ◆ **MUST** be adopted together
