

DESPERATE HOUSECAT MANNY A889613

MANNY is a former community cat who was brought to AAC because he had a severe eye infection. We moved him into a foster home, where he was treated and made a complete recovery. **MANNY** is extremely shy with people, which qualifies him as a **CACTUS CAT** - <http://austintexas.gov/page/cactus-cats>. He can be petted (go slow), but he often runs from humans. **MANNY** finds comfort in other cats, seeking them out to snuggle with. Check out the carrier cuddle puddle! Through clicker training, we think that he will gain confidence, and with the help of his cat buddies, he will become more comfortable with people.

- ◆ 3 years old, brown tabby and white, neutered
- ◆ INTAKE: 9/25/2023
- ◆ FIV+ (not a big deal):
(<http://desperatehousecats.info/fiv.html>)
- ◆ Can be petted if you go slowly
- ◆ Extremely shy; Needs a cat buddy
- ◆ Great with other cats; Unknown around dogs;
Not recommended for young children

The adoption fee is **WAIVED** for **MANNY** and **ALL** Desperate Housecats!
