

DESPERATE HOUSECAT MILLIE A837846

MILLIE is the cutest, and she's crazy about other cats! At barely 6 lbs, she's playful, affectionate and an occasional lap cat. When **MILLIE** arrived at AAC, she had a URI (kitty cold). She received several courses of treatment over the next few months (she kept getting congested), after which the DVMs concluded that she has a chronic stuffy nose (not a URI). We moved **MILLIE** into a foster home for additional evaluation. Turns out all she needs is to sit in the bathroom a couple of times a week while someone is showering (strange but true). 😊 The steam opens her sinuses and keeps her congestion under control. In addition to cats, we think that **MILLIE** would be fine with dogs and children.
