

DESPERATE HOUSECAT MISTY A732818

And then there was one, and she's a Cat's Cat! **MISTY** arrived at AAC as a kitten after being rescued from a hoarding situation, and she's the last one from this group who still needs a home. **MISTY** spent several months in the shelter, but always hid from adopters, so we moved her into a foster home. She quickly became BFFs with several of her foster siblings. **MISTY** is still shy with her foster mom, and will sometimes run from her (although if approached slowly she enjoys being petted). She **DOES** like hanging out near her human, and is **NEVER** aggressive or unfriendly. We believe that in time, in the right home (which includes at least one feline buddy), **MISTY** will warm up to her human and become an affectionate and loving companion.
