

DESPERATE HOUSECAT

Misty A764237

Misty is adorable and very timid. Surrendered to the shelter after living with her owner for 9 years she soon became terrified. Eventually **Misty** was moved into a foster home so that she could decompress and relax. After a few weeks **Misty** started to slowly trust her foster mom – treats really helped with this! She now comes and requests petting when her foster mom comes into the room and sits down (no treats required but they aren't turned down either). **Misty** is playful and absolutely loves catnip. She is still somewhat afraid of hands and will need a patient cat savvy adopter who will help her realize that she is now safe. **Misty** does not seem to like other cats.

- ◆ 10 years old, brown tabby, spayed
- ◆ INTAKE: 12/26/2017
- ◆ Loves treats and catnip
- ◆ Likes being pet and is playful
- ◆ Timid – needs a patient adopter and a quiet home
- ◆ Does not like other cats. Would be happiest as an only pet

To adopt **Misty**, visit www.austintexas.gov/departments/adopt-pet
