

DESPERATE HOUSECAT MUFASA 26040

SO Majestic! After living with one owner his entire life, **MUFASA** has found himself at AAS because of allergies in the family. He has been described as the ‘best cat ever’; a very sweet love bug. He loves to be held, and will purr the entire time. **MUFASA** allows nail trims, enjoys being brushed, and is easy to put in a carrier. He is a cuddly lap cat, and is friendly and social. Because he is older, we would love to see **MUFASA** out of the shelter, either through adoption or foster. He has lived with other cats and young children, but he also might really enjoy being the only one getting all the attention.
