

DESPERATE HOUSECAT MURPHY A720606

MURPHY's favorite activity is cuddling! He also really likes belly rubs and is a lap cat! He has a history of occasionally urinating outside the litterbox (medical issues have been ruled out), but his previous owner told us that it **doesn't** seem to occur when his human is home and he can get plenty of snuggle time. Because **MURPHY** did NOT have any accidents at the shelter (he was living in a group room), we moved him into a foster home for further evaluation. After many weeks, he has NOT urinated inappropriately. Perhaps **MURPHY** needs the companionship of other felines (there were no other cats in his previous home) who are not dominant. **MURPHY** will sleep next to your pillow at night, but doesn't hog the bed.
