

DESPERATE HOUSECAT OSCAR A739049

Sweet! Adorable! Super Affectionate! **OSCAR** has it all! He was brought to AAC after his owner lost their home. It was discovered that he had a thickened larynx, so we moved him into a foster home for treatment. The thickening could have been due to inflammation or to cancer, but **OSCAR** has responded very well to low doses of prednisolone, and is no longer being treated. Only time will tell if the inflammation will return, but he is doing great, and has even gained weight. **OSCAR** is quiet, mellow, and gentle. He wants nothing more than to sit in your lap and be cuddled. But **WATCH OUT**: He's known to climb on your shoulder and nuzzle your neck! ☺ **OSCAR** gets along great with other cats, and is fine around dogs.

- ◆ 8 years old, orange tabby, neutered
- ◆ INTAKE: 11/26/2016
- ◆ Mellow, Sweet, Quiet, Gentle
- ◆ **ADORABLE BEHAVIOR**: Will climb on your shoulder and nuzzle your neck
