

DESPERATE HOUSECATS

PERIDOT A752729 & GARNET A752731

MY, How You've Grown! 😊 Brothers **PERIDOT** and **GARNET** have been together their entire lives and are very bonded. They arrived at AAC as 'itty bitties' and were immediately moved into a foster home. **PERIDOT** and **GARNET** have been through a lot in their young lives, including bouts with URI and ringworm. **Extremely healthy and energetic, this loving pair is now ready for their forever home...together.** **PERIDOT** is a bit more shy than his brother, but once he warms up to you he **LOVES** to be petted (his purrs confirm how much he enjoys it). He can't resist playtime with a laser, sunbathing and bird watching. He is a follower and likes to observe his surroundings. **GARNET** can be shy but warms up quickly (he'll have a conversation with you). He is more outgoing than his brother. He is vocal, loves to 'hunt' his toys, climb, and explore his environment. **PERIDOT** and **GARNET** are wonderful with other cats and dogs, and would prefer a quieter home environment.
