

DESPERATE HOUSECAT PUMPKIN A734396

Cutie Pie **PUMPKIN** knows what she likes (and doesn't like). ☺ She's only had one owner, and they brought her to AAC after she started peeing outside the litterbox. Turns out **PUMPKIN** had an infection, and now that she's recovered, there haven't been any more accidents (at the shelter or in her foster homes). She has **2 ADORABLE BEHAVIORS**: While petting **PUMPKIN**, if you scruff her, she will start screaming, but as soon as you stop, she's fine, and you can immediately start petting her again. She also **LOVES** a gentle spanking and to have her butt petted (her tongue starts darting in and out of her mouth) ☺! **PUMPKIN** is afraid of other pets and children.

VISIT ME IN THE VOLUNTEER COORDINATORS' OFFICE
