

DESPERATE HOUSECAT RASCAL A884564

RASCAL is a former community cat who was brought to AAC after he became ill. He was very thin and dehydrated, so we moved him into a foster home for supportive care. **RASCAL** made a complete recovery, and now he's ready for his forever home. He is very shy with people, so **RASCAL** qualifies as a **CACTUS CAT** (<http://austintexas.gov/page/cactus-cats>). He is great with other cats, and wouldn't mind having a cat buddy in his new home. He tends to hide from humans, but **RASCAL** is easy to pull out and to handle. He'll even sit in your lap for short periods of time, and has been known to lean into a pet and to purr. **RASCAL** is never aggressive, and just needs time to acclimate to his new home and to new people.
