

DESPERATE HOUSECAT RIPLEY A748360

RIPLEY is energetic and playful. She arrived at AAC as a stray, so we don't know much about her past. She is comfortable around people, but can get overstimulated when you are petting her (she'll swat when she's had enough). This behavior could also be attributed to **RIPLEY** being somewhat overwhelmed in the shelter environment. She enjoys spending time on her group room catio, and would do well in a home with safe access to the outdoors. **RIPLEY** is fine around other cats and may be tolerant of older children.
