

DESPERATE HOUSECAT SCARLETT A866065

SCARLETT doesn't know that she's blind! And you'll find it hard to believe also. Because she arrived at AAC as a stray, we don't know if she was born this way or if it's the result of ruptured ulcers (no medical treatment is necessary). Regardless, **SCARLETT** is a very happy kitten who gets around extremely well! Her senses are so acute, she seldom runs into anything. She LOVES other cats, and must have a cat buddy in her new home. **SCARLETT** follows her foster siblings around, eats when they eat, drinks when they drink, etc. She finds toys and plays by herself or with her buddies. **SCARLETT** is a bit shy with humans, so it's best to talk to her as you approach her slowly. She likes being petted (she's just not used to it), and can be held. But mostly, like any kitten her age, she wants to run around and explore. For safety reasons, **SCARLETT** should live in a one-story home with a simple layout (and please don't move the furniture around once she's used to the environment). 🐾
