

# DESPERATE HOUSECAT SHRUB A757974

**SHRUB** is used to an indoor/outdoor life, so she spends a lot of time on the catio in her group room. She was brought to AAC after living with the same owner since she was a kitten. **SHRUB** is energetic and enjoys playing outside during the day, and will sleep on the bed at night. We've observed that she's a little shy, and likes to 'be in charge', choosing to approach humans for petting rather than to be approached. **SHRUB** is great with other cats, but we don't know how she is with dogs. Because she is shy, she needs a patient adopter who will give her time to acclimate to a new home and new people.
