

DESPERATE HOUSECAT

Simone A904451

Adorable **SIMONE** arrived at AAC with her two kittens and a few health issues. She was underweight and her gums were red and inflamed. She moved into a foster home, where it was discovered that **SIMONE** has a bit of a limp. This was caused by a break in her leg (it happened a long time ago) that was never set. As a result, it healed badly, but it **doesn't** seem to bother her at all. **SIMONE** also has a lung issue which may be asthma. Of the most concern was her inflamed mouth. Thanks to Friends of Austin Animal Center and Spicewood Springs Cat Animal Hospital, **SIMONE's** mouth is much better, as she is now toothless. She is sometimes scared of people, but in her foster home, **SIMONE** has come a long way overcoming that fear. She is absolutely the cutest, sweetest cat who just wants a quiet home with lap time, toys and treats!
