

DESPERATE HOUSECAT SISSY A833692

SISSY arrived at AAC as a stray, and because she's declawed, her life on the streets must have been REALLY tough! Shelter life was also stressful for her, as she doesn't seem to be comfortable around other cats. Even so, **SISSY** did well during her photo shoot. Away from other felines, she started to relax and enjoyed being petted. Now that she's in a foster home, we believe that **SISSY**'s true personality is emerging. **SISSY** reciprocates affection by purring and giving gentle luv nips, so she may not be suitable for a home with young children.
