

DESPERATE HOUSECAT SLIPPER A837839

Don't let **SLIPPER**'s perpetual 'grumpy' look fool you. 😊 She's a very sweet, cuddly lap cat! She's lived with just one owner her entire life, but when they moved, they couldn't take her along. **SLIPPER** is a bit overwhelmed in the shelter, and doesn't like being in a kennel. But once you take her out (she's easy to pick up and hold), she's friendly and talkative. She's shy when you first meet her, but warms up over time. Her favorite thing to do is to jump in your lap, roll over and 'ask' for a belly rub! **SLIPPER** has not lived with other animals, but she may be tolerant of them if they give her space.
