

# DESPERATE HOUSECAT SMUDGE A471683

With her unusual coloring and markings, **SMUDGE** is positively beautiful! She was adopted from AAC as a kitten, and didn't understand why she was back in the shelter YEARS later. The shelter environment stressed her out (she's not a fan of other cats), but now that she's in a foster home, **SMUDGE** is a Velcro companion. She follows her foster mom everywhere when she's awake and sleeps next to her at night. She enjoys playing with toys and zooming around in short bursts, but mostly **SMUDGE** is calm and likes to lounge. She's definitely a lap cat. She's not a huge fan of being brushed, but tolerates it because she gets treats afterwards. 😊
