

DESPERATE HOUSECAT SQUEAKS A896427

Look at that amazing coat! **SQUEAKS** doesn't just have very unique fur, he also has a unique personality. He was brought to AAC by a Good Sam who noticed that **SQUEAKS** was pretty sick. Turns out he had a **urinary obstruction**, and thanks to our veterinary staff, he was treated and made a **complete recovery**. To prevent future blockages, **SQUEAKS** simply needs to eat a prescription urinary diet. He is friendly and talkative, but can be a little shy when he first meets someone. Sudden movements and loud noises seem to startle him, so **go slowly, offer a hand for pets, and he will react calmly**. He'll even chirp out for some attention.
