

DESPERATE HOUSECAT SQUIRREL A865912

SQUIRREL needs (and deserves) a break from shelter life! He is a young and very energetic cat who doesn't like to be confined. He has been in trouble for biting, so he needs a very experienced adopter or foster who can provide him with plenty of space to run around. During his photo session, **SQUIRREL** was easy to handle and very sweet. He IS mouthy, so he's not suitable for a home with young children. He is SO much fun to watch while he plays (he loves catnip). **SQUIRREL** may not like other cats, or he may just need very slow introductions and his own space while he is acclimating to cat buddies. Petting sessions with **SQUIRREL** should be kept short, and interactive toys can be introduced when he is overstimulated. Volunteers and staff are available to provide guidance and tips to qualified adopters or fosters.
