

DESPERATE HOUSECAT SWISH A865649

Sweet **SWISH** is very shy, so she doesn't often look directly at the camera. 😊 This shyness qualifies her as a **CACTUS CAT** (<http://austintexas.gov/page/cactus-cats>). However, unlike 'pure' Cactus Cats, **SWISH** is easily picked up and held, and is a lap cat. When you first meet her, she may seem unapproachable (and possibly even hide), but go slowly and soon she'll be in your lap. She enjoys being petted and the more you pet her, the more she relaxes. Volunteers and staff have described **SWISH** as mellow (she is never aggressive). **SWISH** gets along well with other cats. We recommend a quiet home for **SWISH** with or without a feline buddy.
